RE: Approval of Amendments to Chapter 23, Investment Policy and Procedures

In conjunction with our annual review of the Travis County Investment Policy and Procedures, Cash/Investment Management (CIM) recommends changes in the Travis County Investment Policy to change the maximum allowable Weighted Average Maturity (WAM) for the Operating Portfolio. Revise the credit rating section in Eligible Investments to comply with the Public Funds Investment Act (PFIA) as well as the percentage of collateral needed for securities lending. We are also recommending the addition of regular monitoring of the investments that are on loan through the securities lending agreement as well as the collateral that is being held by the Lending Agent in lieu of the securities on loan. These changes were reviewed by the members of the Investment Advisory Committee, and have the Committee's concurrence.

1. Amend Weighted Average Maturity (WAM) for Operating Account Portfolio

It is recommended that the WAM for the Operating Account Portfolio be increased from 547 days to 730 days or two years.

Rationale:

This change is in response to the extraordinarily low interest rate environment. With rates at such low levels, it has been to the benefit of Travis County that we purchase more callable securities. Agency callables have been earning better yields than agency bullets with the only risk being that they are called before their maturity date. At this point in the market cycle, we believe that it is better to take advantage of the yield offered by the callables, even if it is short-term. With the portfolio being heavily weighted in callables, the WAM can be difficult to predict and is not a true reflection of the securities being held since most are called long before their final maturity date. We make every attempt to predict the probability of when a security might be called, but this is not always accurate and sometimes can create a situation where the WAM then exceeds the allowable amount. Therefore, we are proposing that the WAM be increased from 547 days to 730 days or two years. It goes without saying that safety and liquidity remain our first priorities and increasing the WAM will help us better manage the securities and stay well within the bounds of the maximum WAM. We had considered using a better measure such as effective duration in place of WAM, but because of the wording in the PFIA and after consultation with our attorney, it was not clear if we could replace the WAM measurement with duration, so we opted for increasing the WAM.

Text: See Attachment A, Section 23.012 and Section 23.026 (a)

2. Amend the wording for the ratings of Eligible Investments to match the PFIA

It is recommended that the wording in section 23.017 (4) be amended to match the requirements of the Public Funds Investment Act (PFIA).

Rationale:

This proposed change is more of a housekeeping item. Section 2256.009 (a)(5) reads "obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent." Our policy has been to remain very conservative and doing the appropriate due diligence to have confidence that the area we are investing in has good economic traits or signs to have the confidence that it will not be downgraded. Although, who would have ever thought that the U.S. government would be downgraded. Again, safety and liquidity are the overriding criteria for every investment.

Text: See Attachment A, Section 23.017 (4)

3. Amend Collateral Requirement and monitoring for Securities Lending

It is recommended that the amount of collateral coverage for securities lending be amended to 102% of principal plus accrued interest.

Rationale:

This proposed change provides consistency with the securities lending agreement that we are reviewing and most likely will initiate after a review by Purchasing for Professional Services contract. The coverage was 105% to make it consistent with our Depository Contract, but the Securities Lending agreement we are currently contemplating requires 102% of the market value of the loaned security plus accrued interest and is monitored on a daily basis by the lending agent. Any time collateral drops below that amount, additional collateral will be added by the Borrower. In doing research on procedures for securities lending and who is participating in these types of agreements, we have found that because we must operate within the bounds of the PFIA that many of the suggested procedures were already a part of the investment policy. We have added another monitoring requirement in the section 23.042 requiring reconciling of the safekeeping reports from our Custodian, the lending reports from the Lending Agent as well as the collateral reports to insure that the investments are being managed within the bounds of the Travis County Investment Policy and the securities lending agreement.

Text: See Attachment A. Section 23.017 and 23.042 (6)(C)

4. Amend all other administrative changes

It is recommended that all other administrative changes to Chapter 23, Travis County Investment Policy and Procedures, pertaining to wording changes and administrative changes be adopted.

Rationale:

The proposed amendments will not have an impact on the investment of the County's funds. They are strictly administrative and provide an accurate accounting of participants and their duties.

Subchapter A. Investment Authority and Scope of Policy

23.001 Legal Authority to Invest

TEX. LOC. GOV'T CODE ANN., § 116.112(a) (Vernon 1994) authorizes the Commissioners Court to invest county funds in compliance with TEX. GOV'T CODE ANN., ch. 2256.

23.002 Delegation of Investment Authority

- (a) Commissioners Court delegates the authority to select investment instruments in which county funds may be placed and to prepare any documentation necessary to evidence the investment of county funds to the Investment Manager, Assistant Investment Manager, and Senior Financial Analyst. Occasionally, the Commissioners Court may designate in writing other Travis County personnel authorized to invest county funds as back-ups. The Commissioners Court approves or ratifies the investments, and the Commissioners Court retains ultimate responsibility as fiduciaries of the assets of Travis County. The Investment Manager, Assistant Investment Manager, and Senior Financial Analyst advise the Treasurer of the investment instruments purchased and the Treasurer wires the funds. No other person may invest, withdraw, transfer or manage Travis County funds without the express written authority of the Commissioners Court. Authority granted under this section is effective until rescinded by Commissioners Court or until termination of employment by Travis County of persons in the designated positions.
- (b) These designated Cash/Investment Officers must perform their duties in compliance with Chapter 23 and Chapter 32, subchapter (a) Travis County Code and the Tex. Gov't Code Ann. ch 2256, known as the Texas Public Funds Investment Act. When these Cash/Investment Officers act in good faith and in compliance with these chapters, they have no personal liability for their actions.
- (c) Officers and employees of any regional planning commission created under LOC. GOV'T. CODE ANN. ch. 391 are not eligible to be designated any authority under this section.

23.003 County Investment Portfolio Structure

The county funds of Travis County that are entrusted to the Commissioners Court for investment are divided into the following portfolios based on the source of funds:

- (1) The operating account portfolio means funds from the general fund account, the risk management fund account, the employee benefit fund

account, the general county reserve account, and all other Travis County funds except capital projects, and debt service.

- (2) The pooled bond funds portfolio means bond funds from all capital projects except road district funds.
- (3) The debt service portfolio means all interest and sinking funds.

23.004 Applicability of Policy

This policy governs the investment of the operating account portfolio, the pooled bond funds portfolio, and the debt service portfolio. The pooled bond funds portfolio is managed in compliance with its governing ordinances and federal laws, including the Tax Reform Act of 1986, as amended, in addition to compliance with this policy.

In this policy, the words "bond proceeds", "book value", "funds", "investing entity", "entity", "investment pool", "local government", "market value", "separately invested asset", "qualified representative", and "state agency" are used as defined in the TEX. GOV'T CODE ANN. § 2256.002.

23.005 Prudence and Ethical Standards

These standards apply to Cash/Investment Officers and anyone acting on their behalf.

(a) Prudence

- (1) Cash/Investment Officers serve as fiduciaries of Travis County and are responsible for prudently investing its assets. The Investment Officers shall comply with the provisions of this section, the Public Funds Investment Act, and all other applicable laws.
- (2) Travis County uses the "prudent investor rule" when administering the duties of an investment officer within the applicable legal and policy constraints. The prudent investor rule is restated as follows: The Cash/Investment Officers shall invest and manage Travis County assets as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the portfolio. In satisfying this standard, the Investment Officers shall exercise professional care, skill, and judgment. Among circumstances that an Investment Officer shall consider in investing and managing Travis County assets are the following:
 - (A) general economic conditions,
 - (B) the yield curve,
 - (C) the role that each investment plays within the overall portfolio, and,
 - (D) the risk/reward relationship of investments considered.

- (3) In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made as follows:
 - (A) the Investment Officer's investment and portfolio management decisions must be evaluated not in isolation of an individual purchase or sale but in the context of the Travis County portfolio as a whole and as a part of an overall investment strategy having risk and return objectives reasonably suited to the portfolio; and
 - (B) whether the investment decision was consistent with chapter 23 of the Travis County Code.
- (4) Cash/Investment Officers must be honest in the exercise of their duties and must not take actions that will discredit Travis County.
- (5) Travis County Investment Officers must comply with the Travis County Ethics Policy.

(b) **Avoidance of Conflicts of Interest**

- (1) Investment Officers shall be loyal to the interests of Travis County, the Travis County Commissioners Court, and to Travis County residents, to the extent that such loyalty is not in conflict with other duties or legal requirements. Officers shall avoid personal, employment, or business relationships that create conflicts of interest. Should they become aware of any conflict of interest, they have an affirmative duty to disclose and remedy the conflict promptly.
- (2) A conflict of interest exists whenever Investment Officers have personal or private commercial or business relationships that could reasonably be expected to diminish their independence of judgment in the performance of their duties.
- (3) Serving on the Board of a Local Government Investment Pool shall not be prohibited. However, the Board member should not be allowed to invest funds in that Pool without additional approval from another authorized signer, who does not serve on the board of the proposed investment pool and is not a subordinate of the board member.

(c) **Acceptance of Gifts**

- (1) Cash/Investment Officers may not personally accept gifts or entertainment from vendors or consultants doing or seeking to do investment or banking related business with Travis County, except as noted below:
- (2) Gifts, which may be accepted under these guidelines, should not exceed \$50.00 per person, per vendor, in a given fiscal year. If gifts over \$50.00 are provided, they must be returned, donated to a charitable cause, or shared with other County employees. However,

entertainment, food, or goods provided to all persons attending a conference or a continuing education activity and goods or services provided during meetings to conduct business and manage a contract generally do not violate this prohibition.

- (3) Disclosure shall be made to the Executive Manager of Planning and Budget of the acceptance of all gifts, entertainment, food, goods, or services no later than 30 days following the calendar quarter in which received.

23.006 Quality and Capability of Investment Management

Subject to availability of funds, Travis County shall provide periodic training in investments for the Investment Manager, Assistant Investment Manager, and Senior Financial Analyst through courses and seminars offered by professional organizations and associations, in order to insure the quality and capability of the County's investment officers.

23.007 Disclosure of Personal Business

- (a) Any investment officer of Travis County who has a personal business relationship, as described in Texas Government Code § 2256.005(i), with any qualified representative offering to engage in an investment transaction with Travis County, shall file a statement disclosing that personal business interest with the Texas Ethics Commission and the Commissioners Court (see Subchapter L, Forms).
- (b) Any investment officer of Travis County who is related within the second degree by affinity or consanguinity, as determined under TEX. GOV'T CODE ANN., ch. 573, to an individual seeking to engage in an investment transaction with Travis County shall file a statement disclosing that relationship with the Texas Ethics Commission and the Commissioners Court (see subchapter L, Forms).

Subchapter B. Investment Objectives

23.008 Safety of Principal

The primary investment objective of Travis County is to ensure the safety of principal in all portfolios. (See Subchapter D, Safety of Principal.)

23.009 Maintenance of Adequate Liquidity

The secondary investment objective of Travis County for all portfolios is to provide the liquidity necessary to pay obligations as they become due. (See Subchapter E, Liquidity.)

23.010 Return on Investments

Travis County must invest its portfolios in eligible investments that yield the highest possible rate of return while providing the necessary protection of the principal. Travis County seeks to optimize return on investments in all portfolios. The average minimum rate of return for the entire portfolio, excluding funds needed for current obligations, must be at least equal to the Federal Reserve constant maturity treasury rate with a comparable maturity. The only exception to the average minimum rate of return is that the portfolios, during a period of rapidly rising interest rates, will not be able to meet or exceed the rate of return indicator. If funds are subject to yield restrictions due to federal arbitrage regulations, those funds are excluded from the yield calculation.

Travis County may only invest in a particular eligible investment if its yields are equal to or greater than the Treasury Convention or Street Convention yield provided by the Bloomberg Financial Information System or the Interactive Data Corporation yield on United States Treasury obligations of comparable maturity. The Investment Manager and the Investment Advisory Committee may establish additional appropriate criteria for investment performance measures.

23.011 Additional Objectives for Pooled Bond Funds Portfolio

The major objectives for the pooled bond funds portfolio governed by Federal arbitrage regulations are to maximize permitted market yield and to minimize investment costs.

Subchapter C. Investment Strategies

23.012 Operating Account Portfolio

The primary objective of the investment strategy for the operating account portfolio is to create a diversified structure (see 23.024 through 23.027) which will experience minimal volatility during economic cycles, thus providing for preservation and safety of principal.

The secondary objective is to assure that anticipated cash expenditures are matched with adequate liquidity.

The tertiary objective is to ensure that the portfolio is invested in eligible securities that yield the highest possible rate of return while providing the necessary protection of principal. The suitable securities to accomplish these objectives are high quality, marketable, short-to-medium term securities that complement each other in a laddered maturity structure. All eligible securities described by chapter 23, Travis County Code, are suitable for this fund. The dollar weighted average maturity of two years or 547-730 days or less will be calculated using the stated final maturity dates of each security.

23.013 Debt Service Portfolio

The primary, secondary, and tertiary objectives of the investment strategy for the debt service portfolio are the same as the operating account portfolio. The suitable securities to accomplish these objectives are high quality, marketable, short-term securities that mature on or before the debt service payment dates. The securities suitable for this fund are described in 23.017(1).

23.014 Pooled Bond Funds Portfolio

The primary, secondary, and tertiary objectives of the investment strategy for the pooled bond funds portfolio are the same as the operating account portfolio. The suitable securities to accomplish these objectives are high quality, marketable, short-to-medium term securities that match forecasted project expenditures to investment maturities. In addition, a three month historical cash expenditure balance is maintained in highly liquid securities to cover unexpected project outlays. All eligible securities described by chapter 23, Travis County Code, are suitable for this fund.

Subchapter D. Safety of Principal

23.015 Protection of Principal

Travis County seeks to control the risk of loss due to the failure of a security issuer or grantor. To control that risk, Travis County purchases only eligible investments, requires prior approval of qualified representatives/business organizations with which it transacts business, diversifies investments in all portfolios based on maturity and type, monitors the market price of investments by way of independent sources such as market telecommunication services and financial publications, when possible, or through an approved Broker/Dealer other than the one that sold Travis County the security, and collateralizes deposits. The quarterly report will identify the method and source used to monitor the market price of investments. The quarterly report will also indicate whether the method and source changed from the previous quarterly report.

The ratings of all investments held by Travis County are monitored on a regular basis to ensure that the investments remain eligible. If an investment is downgraded to a level lower than the minimum rating required by Chapter 23, the investment officers take prudent action as described in 23.018 (b).

In addition, Travis County must execute the purchase of individual eligible investments only on the "delivery versus payment" (DVP) method with the exception of investment pools and money market mutual funds to ensure that county funds are not released until Travis County has received the securities purchased.

Investment securities must be held in Travis County's name by a third party custodian, as evidenced by safekeeping receipts from the institution with which the securities are deposited.

All investments made by Travis County must comply with all federal, state, and local statutes, rules, and regulations.

Travis County and the Investment Manager may only purchase securities, except for commercial paper, from qualified broker/dealer/financial institutions. Commercial paper shall be purchased in compliance with section 23.044, Competitive Bidding. The Investment Manager may limit the number of institutions with which Travis County does business.

23.022 Annual Review of Approved Broker/Dealer/Financial Institutions

Each year new applicants and broker/dealer/financial institutions currently on the approved list must comply with 23.019 and 23.020 and submit applications to the Investment Manager. The Investment Manager's recommended changes to the approved list must be submitted to the Commissioners Court for approval on an annual basis.

23.023 Removal from Approved List

When the Investment Manager reviews and reevaluates the broker/dealer/financial institutions currently on the approved list and at any other time when the Investment Manager discovers good cause, the Investment Manager may recommend that a broker/dealer/financial institution be removed from the approved list for any of the following reasons:

Diversifying Portfolios

23.024 Diversifying Operating Account Portfolio by Type

The Investment Manager must minimize loss of principal in the operating account portfolio by diversifying investments by type and maturity. The Investment Manager must maintain diversity in the types of eligible investments purchased (see 23.017 for full description of eligible investments) by limiting the percentage of the combined portfolios for each type of eligible investment to the percentage listed in this section. The limits will be tested each Tuesday and the Investment Manager will have 30 days following the test to bring the percentage back within the limits as described below:

Investment Type	Percentage Limit
Obligations of the U.S. – Treasury Notes/Bonds/Bills	100%
Obligations of U.S. Agencies – U.S. Agencies.....	75%
Direct obligations of the State of Texas or its agencies and instrumentalities	60%
Other obligations, the principal and interest on which are unconditionally guaranteed or insured by or backed by the full faith and credit of the State of Texas or the United States or their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States	60%

 (See 23.017 for full description.) 30%

All LGIP's in total 60%

23.025 Diversifying All Other Portfolios by Type

Within the pooled bond funds portfolio and the debt service portfolio the proceeds of a single bond issue may be segregated and invested in a single eligible investment or group of eligible investments designed to facilitate compliance with arbitrage regulations if the Investment Manager or Travis County's arbitrage advisors determine that this type of strategy is necessary to comply with federal arbitrage restrictions or to facilitate arbitrage recordkeeping and calculation.

In all other cases, the Investment Manager must apply the diversification requirements in 23.024 to the pooled bond funds portfolio.

23.026 Diversifying Operating Account Portfolio by Maturity

- (a) The Investment Manager must monitor the maturity dates of all investments in the operating account portfolio to minimize risk of loss from interest rate fluctuations and to ensure that the maturities do not exceed the anticipated cash flow requirements of the operating account portfolio. The Investment

Manager must also monitor the maturity dates of all investments in the operating account portfolio to ensure that the dollar-weighted average days to maturity are less than two years or 547-730 days. The weighted average maturity is calculated as of the end of each month using the stated final maturity dates for each security.

If these levels are exceeded, the Investment Manager must make changes within 30 days in the investments held by Travis County to reduce the maturities to comply with these level requirements.

- (b) The maximum allowable stated maturity of any individual investment owned by the operating account portfolio is as follows (see 23.017 for full description of eligible investments):

Investment Type	Maturity Limit
Obligations of the U.S. – Treasury Notes/Bonds/Bills	7 years
Obligations of U.S. Agencies	5 years
Direct obligations of the State of Texas or its agencies and instrumentalities	5 years
Other obligations, the principal and interest on which are unconditionally guaranteed or insured by or backed by the full faith and credit of the State of Texas or the United States their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States.....	5 years

TexasTERM local government investment pool..... 365 days

23.027 Diversifying All Other Portfolios by Maturity

- (a) The Investment Manager may limit the maturity of the pooled bond funds portfolio, the debt service portfolio and the agency funds portfolio to the "temporary period" as defined by the Internal Revenue Code, § 148, during which bond proceeds may be segregated and invested at an unrestricted yield. After the temporary period ends, the Investment Manager must consider the anticipated cash flow requirements of the funds and invest the portions of the pooled bond funds portfolio, the debt service portfolio and the agency funds portfolio subject to yield restriction within limits permitted by Federal arbitrage regulations.
- (b) The Investment Manager must monitor the maturity dates of all investments in the pooled bond funds portfolio and the debt service portfolio to ensure that the dollar-weighted average days to maturity for each portfolio are less than 365 days. The weighted average maturity is calculated as of the end of each month using the stated final maturity dates for each security.

If these levels are exceeded, the Investment Manager must make changes within 30 days in the investments held by Travis County to reduce the maturities to comply with these level requirements.
- (c) The maximum allowable stated maturity of any individual investment owned by the pooled bonds funds portfolio and the debt service portfolio, that is not subject to the temporary period, is the same as the operating portfolio (See section 23.026); except for the following:

Investment Type	Maturity Limit
Obligations of the U.S. – Treasury Notes/Bonds/Bills	5 years
Obligations of U.S. Agencies	3 years

Collateralizing Deposits

23.028 Collateral Requirements for All Deposits

- (a) Certificates of deposit and bank deposits in financial institutions must be either federally insured or collateralized only with the following securities:
 - (1) Direct obligations of the United States or its agencies and instrumentalities;
 - (2) Other obligations, the principal and interest on which are unconditionally guaranteed or insured by or backed by the full faith and

credit of the United States or its agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States;

- (3) Letters of credit issued to Travis County by the Federal Home Loan Bank, if approved in advance by Travis County .
- (b) If an event causes an increase in Collateral of more than \$50 million to be needed after noon on any business day, the market value of collateral must be equal to or greater than 100% of the par value of the certificates of deposit, plus accrued interest, and equal to or greater than 100% of the bank deposits plus accrued interest, less the amount insured by the Federal Deposit Insurance Corporation and may remain at that level until the next business day when additional collateral can be obtained. At all other times, the market value of collateral must be equal to or greater than 105% of the par value of the certificate of deposits plus accrued interest and equal to or greater than 105% of the bank deposits plus accrued interest, less the amount insured by the Federal Deposit Insurance Corporation.

23.029 Monitoring Collateral Adequacy for All Deposits

Financial institutions with which Travis County has certificates of deposit or bank deposits must provide Travis County with monthly reports that state the market values of collateral. The Investment Manager monitors the adequacy of collateral at least weekly. If the value of the collateral falls below the required level, the financial institution must pledge additional collateral no later than the end of the next business day after the value falls below the required level.

23.030 Substituting Collateral for All Deposits

If the financial institution collateralizing certificates of deposit and bank deposits wants to substitute new collateral, the financial institution must contact the Treasurer for approval. The Investment Manager must calculate the value of the substituted collateral and determine that the substituted collateral is within the requirements of this Investment Policy and the Depository Bank Contract. The value of the new collateral must equal at least the value of the original collateral. If the collateral has sufficient value, the Treasurer may approve the substitution. The Treasurer must notify the financial institution or the safekeeping agent holding the collateral when any substitution is approved. Although substitution is allowable, it should be limited to minimize a potential administrative burden. The Treasurer may limit substitutions and assess reasonable fees if requests for substitution become excessive or abusive.

23.031 Agreements and Safekeeping for All Deposits

Financial institutions serving as county depositories must enter agreements for the safekeeping of collateral with both Travis County and its safekeeping agent, or agree to

cooperate with the Federal Reserve Bank under the terms of its Pledge Agreement Form, to define Travis County's rights to the collateral in case of default, bankruptcy, or bank closing. All collateral securing deposits is held by the safekeeping agent.

23.032 Collateral Requirements for Repurchase Agreements

Issuers of repurchase agreements must collateralize them with obligations of the United States or its agencies. These issuers must wire transfer the collateral to the safekeeping agent designated by Travis County through the Federal Reserve System. If the collateral matures in one year or less, the value of the collateral must be at least 101% of the par value of the repurchase agreement plus accrued interest. If the collateral matures in one to two years, the value of the collateral must be at least 102% of the par value of the repurchase agreement plus accrued interest. Collateral maturity is limited to two years.

23.033 Monitoring Collateral Adequacy for Repurchase Agreements

The Investment Manager must monitor all collateral underlying repurchase agreements weekly. More frequent monitoring may be necessary during periods of market volatility. If the value of the collateral for a repurchase agreement falls below the required level, the Investment Manager must make a margin call unless the repurchase agreement matures within five business days and the difference between the value of the collateral and the required level is immaterial.

23.034 Substituting Collateral for Repurchase Agreements

Seller shall obtain written consent of Travis County prior to substitution. The duration (or maturity) of securities offered as substitutes may not exceed the duration or maturity of the originally purchased securities.

23.035 Safekeeping of Repurchase Agreement Collateral

Issuers of repurchase agreements must transfer collateral for repurchase agreements to the safekeeping agent with which Travis County has established a safekeeping agreement.

Subchapter E. Liquidity

23.036 Achieving Liquidity

Investments are selected to meet anticipated cash needs. The Investment Manager must achieve liquidity by purchasing eligible investments described by 23.017 with active secondary markets, eligible MMMF's and LGIP's.

23.037 Liquidating Investments

The Investment Manager may liquidate an investment to meet unanticipated cash requirements, to redeploy cash into other investments expected to outperform current holdings, or to adjust the portfolios for other reasons.

Subchapter F. Investment Return Achievement

23.038 Priority of Investment Goals

The Investment Manager must consider legality, safety, liquidity, diversification, risk and rate of return in investment selection for all portfolios. Investments are made in securities with maturities corresponding to anticipated cash requirements. Investments are to take advantage of yield curves and earn additional returns. The Investment Manager must actively manage all Travis County portfolios to enhance total income in compliance with the "prudent investor rule" described by 23.005. The Investment Manager may use bond swaps to achieve these management goals.

23.039 Bond Swaps

If the demand for a bond from a particular agency creates a situation where the yields in that agency's bonds are the same or less than an equivalent treasury security, swapping the agency's bond for a treasury security can improve the quality of Travis County's portfolios. If bonds in a particular maturity range are limited in the market, swapping a bond in demand for a similar bond in a different maturity range may be advantageous. The Investment Manager may swap a bond held in any Travis County portfolio for a comparable bond in the market to improve portfolio yield even if the transaction results in an accounting loss. The Investment Manager may swap a bond held in any Travis County portfolio if the overall yield of the portfolio will not decrease after the swap and the date of maturity of the new security is less than 181 days after the maturity date of the old security. The Investment Manager must solicit competitive bids for bond swaps. All bids received are documented and filed for auditing purposes.

The Investment Manager uses cash flow projections to match assets and liabilities in addition to maximizing the return on investments.
- (5) **Determining Cash Available for Investment.** The Investment Manager determines the amount of county funds available for investment each business day. All funds that can be legally invested and that are not required for that day's controlled disbursement are considered funds available for investment.
- (6) **Monitoring Investment Performance.**

This analysis uses information obtained from investment advisors, brokers, investment industry publications, and investment industry information systems.
 - (B) The Investment Manager monitors the current and expected yield curves for interest rate movements. When interest rates are expected to decline, maturity ranges are extended within portfolio and policy constraints. When interest rates are expected to increase, maturity ranges are shortened. Subchapter H. Investment Purchasing Procedures

23.044 Competitive Bidding

- (a) Travis County requires competitive bidding for all individual security purchases except for those transactions with MMMFs, LGIPs, treasuries purchased through the Federal Reserve Treasury Direct Accounts, and for government securities purchased at issue through an approved broker/dealer at the auction price. The Investment Manager may rely not only on yield in selecting MMMFs and LGIPs but also on adherence to applicable Securities and Exchange Commission (SEC) guidelines for MMMFs and other criteria determined by her.
- (b) At least three bids or offers must be solicited in all transactions involving individual securities. For those situations where it may be impractical or unreasonable to receive three bids for an agency transaction due to secondary market availability, bids may be considered comparable for agencies with comparable structures and having maturities within 15 calendar days before and after the requested security. Competitive bidding for security swaps is also required. Bids may be solicited in any manner provided by law. All bids received must be documented and filed for auditing purposes.
- (c) At least three bids or offers must be solicited in transactions involving domestic commercial paper. These bids shall be obtained from approved broker/dealers or from a financial information source, such as Bloomberg. When bids are obtained from a financial information source, the commercial paper selected may be purchased directly from the issuer. Different issuers may be compared to select the highest yielding, domestic commercial paper. The Investment Manager may rely not only on yield in selecting commercial paper but also on other criteria determined by her. The criteria to follow when soliciting bids are as follows:

- (1) The maturity dates must be the same, and
- (2) The method of settlement must be the same whether regular settlement next day or cash settlement same day.

23.045 Preliminary Requirements for Repurchase Agreements

Before Travis County enters into a repurchase agreement with any issuer, that issuer must sign a Master Repurchase Agreement approved by Commissioners Court and return it to the Investment Manager for filing. All Repurchase Agreements are recommended by the Investment Manager, reviewed by Travis County Attorney's Office, and approved by Commissioners Court.

23.046 Wire Transfer Procedures

- (a) In executing investment transactions, the Treasurer must use pre-formatted repetitive wire transfers, whenever possible, to restrict transfers of funds to pre-authorized accounts.
- (b) For transfer of investment funds via wire to non-county accounts, the agreement with the depository bank must require the depository bank to call the Investment Manager for confirmation that this transfer is authorized prior to the transfer.

Subchapter I. Performance Evaluation And Reporting

23.047 Levels of Evaluation

Evaluation is conducted at several levels. The Investment Manager continually monitors and evaluates the investment performance. Cashflow forecasts will be reviewed by the Investment Advisory Committee. The Investment Advisory Committee evaluates the investment strategies and portfolio performance. The Travis County Executive Manager for Planning and Budget or the Travis County Budget Director evaluates the Investment Manager's entire performance.

23.048 Investment Advisory Committee

The Investment Advisory Committee reviews investment policies and procedures, investment strategies, and investment performance. Travis County members of the Committee include: two designated members of Commissioners Court, one of whom acts as Chair, the Executive Manager of Planning and Budget, the Investment Manager, the Treasurer, and the Auditor. The Chair calls annual meetings of the committee or more often as needed.

23.049 Performance Analysis and Reporting

The Investment Manager determines the level and content of daily and weekly performance analysis and reporting. The Investment Manager and the Commissioners Court jointly decide the level and content of monthly performance analysis and reporting.

23.050 Quarterly Performance Analysis and Reporting

(a) The Investment Manager and the Assistant Investment Manager(s) must prepare, provide, and sign a quarterly summary report, for each fund group, that describes in detail the investment position of Travis County and evaluates investment performance based on investment policy objectives. The quarterly report will identify the method and source used to monitor the market price of investments and also will indicate whether the method and source changed from the previous quarterly report. This report must be submitted to the Investment Advisory Committee and Commissioners Court. A comparison of the performance of Travis County's portfolio to appropriate benchmarks selected by the Investment Manager is presented. The report addresses compliance with the investment policy in diversification by type and maturity. The report also includes the following information:

- (1) Cash availability,
- (2) Market review,

- (8) Investment activity,
- (9) Market valuation:

23.051 Annual Performance Analysis and Reporting

The Investment Manager compiles the quarterly reports into an annual report at the end of each fiscal year and submits it to the Investment Advisory Committee and the Commissioners Court by the end of the first quarter of the following fiscal year.

An independent auditor chosen to audit the County's annual financial statements must formally review the quarterly investment reports that are prepared in compliance with the Public Funds Investment Act. In conjunction with this audit, Travis County shall perform a compliance audit of management controls on investments and adherence to this Investment Policy. This review should be performed at least annually and the results reported to Commissioners Court.

Subchapter A. Investment Authority and Scope of Policy

23.001 Legal Authority to Invest

TEX. LOC. GOV'T CODE ANN., § 116.112(a) (Vernon 1994) authorizes the Commissioners Court to invest county funds in compliance with TEX. GOV'T CODE ANN., ch. 2256.

23.002 Delegation of Investment Authority

- (a) Commissioners Court delegates the authority to select investment instruments in which county funds may be placed and to prepare any documentation necessary to evidence the investment of county funds to the Investment Manager, Assistant Investment Manager, and Senior Financial Analyst. Occasionally, the Commissioners Court may designate in writing other Travis County personnel authorized to invest county funds as back-ups. The Commissioners Court approves or ratifies the investments, and the Commissioners Court retains ultimate responsibility as fiduciaries of the assets of Travis County. The Investment Manager, Assistant Investment Manager, and Senior Financial Analyst advise the Treasurer of the investment instruments purchased and the Treasurer wires the funds. No other person may invest, withdraw, transfer or manage Travis County funds without the express written authority of the Commissioners Court. Authority granted under this section is effective until rescinded by Commissioners Court or until termination of employment by Travis County of persons in the designated positions.
- (b) These designated Cash/Investment Officers must perform their duties in compliance with Chapter 23 and Chapter 32, subchapter (a) Travis County Code and the Tex. Gov't Code Ann. ch 2256, known as the Texas Public Funds Investment Act. When these Cash/Investment Officers act in good faith and in compliance with these chapters, they have no personal liability for their actions.
- (c) Officers and employees of any regional planning commission created under LOC. GOV'T. CODE ANN. ch. 391 are not eligible to be designated any authority under this section.

23.003 County Investment Portfolio Structure

The county funds of Travis County that are entrusted to the Commissioners Court for investment are divided into the following portfolios based on the source of funds:

- (1) The operating account portfolio means funds from the general fund account, the risk management fund account, the employee benefit fund

account, the general county reserve account, and all other Travis County funds except capital projects, and debt service.

- (2) The pooled bond funds portfolio means bond funds from all capital projects except road district funds.
- (3) The debt service portfolio means all interest and sinking funds.

23.004 Applicability of Policy

This policy governs the investment of the operating account portfolio, the pooled bond funds portfolio, and the debt service portfolio. The pooled bond funds portfolio is managed in compliance with its governing ordinances and federal laws, including the Tax Reform Act of 1986, as amended, in addition to compliance with this policy.

In this policy, the words "bond proceeds", "book value", "funds", "investing entity", "entity", "investment pool", "local government", "market value", "separately invested asset", "qualified representative", and "state agency" are used as defined in the TEX. GOV'T CODE ANN. § 2256.002.

23.005 Prudence and Ethical Standards

These standards apply to Cash/Investment Officers and anyone acting on their behalf.

(a) Prudence

- (1) Cash/Investment Officers serve as fiduciaries of Travis County and are responsible for prudently investing its assets. The Investment Officers shall comply with the provisions of this section, the Public Funds Investment Act, and all other applicable laws.
- (2) Travis County uses the "prudent investor rule" when administering the duties of an investment officer within the applicable legal and policy constraints. The prudent investor rule is restated as follows: The Cash/Investment Officers shall invest and manage Travis County assets as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the portfolio. In satisfying this standard, the Investment Officers shall exercise professional care, skill, and judgment. Among circumstances that an Investment Officer shall consider in investing and managing Travis County assets are the following:
 - (A) general economic conditions,
 - (B) the yield curve,
 - (C) the role that each investment plays within the overall portfolio, and,
 - (D) the risk/reward relationship of investments considered.

- (3) In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made as follows:
 - (A) the Investment Officer's investment and portfolio management decisions must be evaluated not in isolation of an individual purchase or sale but in the context of the Travis County portfolio as a whole and as a part of an overall investment strategy having risk and return objectives reasonably suited to the portfolio; and
 - (B) whether the investment decision was consistent with chapter 23 of the Travis County Code.
- (4) Cash/Investment Officers must be honest in the exercise of their duties and must not take actions that will discredit Travis County.
- (5) Travis County Investment Officers must comply with the Travis County Ethics Policy.

(b) Avoidance of Conflicts of Interest

- (1) Investment Officers shall be loyal to the interests of Travis County, the Travis County Commissioners Court, and to Travis County residents, to the extent that such loyalty is not in conflict with other duties or legal requirements. Officers shall avoid personal, employment, or business relationships that create conflicts of interest. Should they become aware of any conflict of interest, they have an affirmative duty to disclose and remedy the conflict promptly.
- (2) A conflict of interest exists whenever Investment Officers have personal or private commercial or business relationships that could reasonably be expected to diminish their independence of judgment in the performance of their duties.
- (3) Serving on the Board of a Local Government Investment Pool shall not be prohibited. However, the Board member should not be allowed to invest funds in that Pool without additional approval from another authorized signer, who does not serve on the board of the proposed investment pool and is not a subordinate of the board member.

(c) Acceptance of Gifts

- (1) Cash/Investment Officers may not personally accept gifts or entertainment from vendors or consultants doing or seeking to do investment or banking related business with Travis County, except as noted below:
- (2) Gifts, which may be accepted under these guidelines, should not exceed \$50.00 per person, per vendor, in a given fiscal year. If gifts over \$50.00 are provided, they must be returned, donated to a charitable cause, or shared with other County employees. However,

entertainment, food, or goods provided to all persons attending a conference or a continuing education activity and goods or services provided during meetings to conduct business and manage a contract generally do not violate this prohibition.

- (3) Disclosure shall be made to the Executive Manager of Planning and Budget of the acceptance of all gifts, entertainment, food, goods, or services no later than 30 days following the calendar quarter in which received.

23.006 Quality and Capability of Investment Management

Subject to availability of funds, Travis County shall provide periodic training in investments for the Investment Manager, Assistant Investment Manager, and Senior Financial Analyst through courses and seminars offered by professional organizations and associations, in order to insure the quality and capability of the County's investment officers.

23.007 Disclosure of Personal Business

- (a) Any investment officer of Travis County who has a personal business relationship, as described in Texas Government Code § 2256.005(i), with any qualified representative offering to engage in an investment transaction with Travis County, shall file a statement disclosing that personal business interest with the Texas Ethics Commission and the Commissioners Court (see Subchapter L, Forms).
- (b) Any investment officer of Travis County who is related within the second degree by affinity or consanguinity, as determined under TEX. GOV'T CODE ANN., ch. 573, to an individual seeking to engage in an investment transaction with Travis County shall file a statement disclosing that relationship with the Texas Ethics Commission and the Commissioners Court (see subchapter L, Forms).

Subchapter B. Investment Objectives

23.008 Safety of Principal

The primary investment objective of Travis County is to ensure the safety of principal in all portfolios. (See Subchapter D, Safety of Principal.)

23.009 Maintenance of Adequate Liquidity

The secondary investment objective of Travis County for all portfolios is to provide the liquidity necessary to pay obligations as they become due. (See Subchapter E, Liquidity.)

23.010 Return on Investments

Travis County must invest its portfolios in eligible investments that yield the highest possible rate of return while providing the necessary protection of the principal. Travis County seeks to optimize return on investments in all portfolios. The average minimum rate of return for the entire portfolio, excluding funds needed for current obligations, must be at least equal to the Federal Reserve constant maturity treasury rate with a comparable maturity. The only exception to the average minimum rate of return is that the portfolios, during a period of rapidly rising interest rates, will not be able to meet or exceed the rate of return indicator. If funds are subject to yield restrictions due to federal arbitrage regulations, those funds are excluded from the yield calculation.

Travis County may only invest in a particular eligible investment if its yields are equal to or greater than the Treasury Convention or Street Convention yield provided by the Bloomberg Financial Information System or the Interactive Data Corporation yield on United States Treasury obligations of comparable maturity. The Investment Manager and the Investment Advisory Committee may establish additional appropriate criteria for investment performance measures.

23.011 Additional Objectives for Pooled Bond Funds Portfolio

The major objectives for the pooled bond funds portfolio governed by Federal arbitrage regulations are to maximize permitted market yield and to minimize investment costs.

Subchapter C. Investment Strategies

23.012 Operating Account Portfolio

The primary objective of the investment strategy for the operating account portfolio is to create a diversified structure (see 23.024 through 23.027) which will experience minimal volatility during economic cycles, thus providing for preservation and safety of principal.

The secondary objective is to assure that anticipated cash expenditures are matched with adequate liquidity.

The tertiary objective is to ensure that the portfolio is invested in eligible securities that yield the highest possible rate of return while providing the necessary protection of principal. The suitable securities to accomplish these objectives are high quality, marketable, short-to-medium term securities that complement each other in a laddered maturity structure. All eligible securities described by chapter 23, Travis County Code, are suitable for this fund. The dollar weighted average maturity of two years or 730 days or less will be calculated using the stated final maturity dates of each security.

23.013 Debt Service Portfolio

The primary, secondary, and tertiary objectives of the investment strategy for the debt service portfolio are the same as the operating account portfolio. The suitable securities to accomplish these objectives are high quality, marketable, short-term securities that mature on or before the debt service payment dates. The securities suitable for this fund are described in 23.017(1).

23.014 Pooled Bond Funds Portfolio

The primary, secondary, and tertiary objectives of the investment strategy for the pooled bond funds portfolio are the same as the operating account portfolio. The suitable securities to accomplish these objectives are high quality, marketable, short-to-medium term securities that match forecasted project expenditures to investment maturities. In addition, a three month historical cash expenditure balance is maintained in highly liquid securities to cover unexpected project outlays. All eligible securities described by chapter 23, Travis County Code, are suitable for this fund.

Subchapter D. Safety of Principal

23.015 Protection of Principal

Travis County seeks to control the risk of loss due to the failure of a security issuer or grantor. To control that risk, Travis County purchases only eligible investments, requires prior approval of qualified representatives/business organizations with which it transacts business, diversifies investments in all portfolios based on maturity and type, monitors the market price of investments by way of independent sources such as market telecommunication services and financial publications, when possible, or through an approved Broker/Dealer other than the one that sold Travis County the security, and collateralizes deposits. The quarterly report will identify the method and source used to monitor the market price of investments. The quarterly report will also indicate whether the method and source changed from the previous quarterly report.

The ratings of all investments held by Travis County are monitored on a regular basis to ensure that the investments remain eligible. If an investment is downgraded to a level lower than the minimum rating required by Chapter 23, the investment officers take prudent action as described in 23.018 (b).

In addition, Travis County must execute the purchase of individual eligible investments only on the "delivery versus payment" (DVP) method with the exception of investment pools and money market mutual funds to ensure that county funds are not released until Travis County has received the securities purchased.

Investment securities must be held in Travis County's name by a third party custodian, as evidenced by safekeeping receipts from the institution with which the securities are deposited.

All investments made by Travis County must comply with all federal, state, and local statutes, rules, and regulations.

Purchasing Only Eligible Investments

23.016 Ineligible Investments

The following investments, which are legal investments under the Public Funds Investment Act, are ineligible investments for Travis County:

- (1) Collateralized mortgage obligations
- (2) Any security the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

23.017 Eligible Investments

The following investments, which do not include all of the securities allowed by the Public Funds Investment Act, are the only eligible investments for all of Travis County's portfolios:

- (1) Obligations of the United States or its agencies and instrumentalities;
- (2) Direct obligations of the State of Texas or its agencies and instrumentalities;
- (3) Other obligations, the principal and interest on which are unconditionally guaranteed or insured by or backed by the full faith and credit of the State of Texas or the United States or their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States;
- (4) Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent.
- (5) Domestic commercial paper, including commercial paper issued in the United States by corporations doing business and having a significant market presence in the United States, which are wholly owned by foreign entities, and with a stated maturity of 270 days or less from the date of its issuance that is rated not less than A-1 by Standard and Poor's, and P-1 by Moody's, two nationally recognized credit rating agencies.
- (6) Fully collateralized repurchase agreements including direct security repurchase agreements and reverse security repurchase agreements that:

- (A) have a defined termination date that does not exceed 90 days after delivery,
 - (B) are placed either through a primary government securities dealer as defined by the Federal Reserve, or a financial institution doing business in this state,
 - (C) are secured by a combination of cash and obligations described by 23.017(1), that are pledged to Travis County, held in Travis County's name, and deposited with a third party selected and approved by Travis County, and
 - (D) have a market value at the time funds are disbursed of not less than the principal amount of the funds disbursed. (See 23.032, Collateral Requirements for Repurchase Agreements.)
- (7) Certificates of deposit issued by a depository institution that has its main office or a branch office in this state that are:
- (A) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or
 - (B) secured by obligations that are described by 23.017(1), 23.017(2), 23.017(3) or 23.017(4) that have a market value of not less than 102% of the principal amount plus accrued interest of the certificates. (See 23.028 Collateral Requirements for All Deposits.)
 - (C) secured in any other manner and amount provided by law for deposits of the investing entity.

Diversifying Portfolios

23.024 Diversifying Operating Account Portfolio by Type

The Investment Manager must minimize loss of principal in the operating account portfolio by diversifying investments by type and maturity. The Investment Manager must maintain diversity in the types of eligible investments purchased (see 23.017 for full description of eligible investments) by limiting the percentage of the combined portfolios for each type of eligible investment to the percentage listed in this section. The limits will be tested each Tuesday and the Investment Manager will have 30 days following the test to bring the percentage back within the limits as described below:

Investment Type	Percentage Limit
Obligations of the U.S. – Treasury Notes/Bonds/Bills	100%
Obligations of U.S. Agencies – U.S. Agencies	75%
Direct obligations of the State of Texas or its agencies and instrumentalities.....	60%

23.025 Diversifying All Other Portfolios by Type

Within the pooled bond funds portfolio and the debt service portfolio the proceeds of a single bond issue may be segregated and invested in a single eligible investment or group of eligible investments designed to facilitate compliance with arbitrage regulations if the Investment Manager or Travis County’s arbitrage advisors determine that this type of strategy is necessary to comply with federal arbitrage restrictions or to facilitate arbitrage recordkeeping and calculation.

In all other cases, the Investment Manager must apply the diversification requirements in 23.024 to the pooled bond funds portfolio.

23.026 Diversifying Operating Account Portfolio by Maturity

- (a) The Investment Manager must monitor the maturity dates of all investments in the operating account portfolio to minimize risk of loss from interest rate fluctuations and to ensure that the maturities do not exceed the anticipated cash flow requirements of the operating account portfolio. The Investment

Manager must also monitor the maturity dates of all investments in the operating account portfolio to ensure that the dollar-weighted average days to maturity are less than two years or 730 days. The weighted average maturity is calculated as of the end of each month using the stated final maturity dates for each security.

If these levels are exceeded, the Investment Manager must make changes within 30 days in the investments held by Travis County to reduce the maturities to comply with these level requirements.

- (b) The maximum allowable stated maturity of any individual investment owned by the operating account portfolio is as follows (see 23.017 for full description of eligible investments):

Investment Type	Maturity Limit
Obligations of the U.S. – Treasury Notes/Bonds/Bills	7 years
Obligations of U.S. Agencies	5 years
Direct obligations of the State of Texas or its agencies and instrumentalities	5 years

TexasTERM local government investment pool 365 days

23.027 Diversifying All Other Portfolios by Maturity

- (a) The Investment Manager may limit the maturity of the pooled bond funds portfolio, the debt service portfolio and the agency funds portfolio to the “temporary period” as defined by the Internal Revenue Code, § 148, during which bond proceeds may be segregated and invested at an unrestricted yield. After the temporary period ends, the Investment Manager must consider the anticipated cash flow requirements of the funds and invest the portions of the pooled bond funds portfolio, the debt service portfolio and the agency funds portfolio subject to yield restriction within limits permitted by Federal arbitrage regulations.
- (b) The Investment Manager must monitor the maturity dates of all investments in the pooled bond funds portfolio and the debt service portfolio to ensure that the dollar-weighted average days to maturity for each portfolio are less than 365 days. The weighted average maturity is calculated as of the end of each month using the stated final maturity dates for each security.

If these levels are exceeded, the Investment Manager must make changes within 30 days in the investments held by Travis County to reduce the maturities to comply with these level requirements.
- (c) The maximum allowable stated maturity of any individual investment owned by the pooled bonds funds portfolio and the debt service portfolio, that is not subject to the temporary period, is the same as the operating portfolio (See section 23.026); except for the following:

Investment Type	Maturity Limit
Obligations of the U.S. – Treasury Notes/Bonds/Bills	5 years
Obligations of U.S. Agencies	3 years

Collateralizing Deposits

23.028 Collateral Requirements for All Deposits

- (a) Certificates of deposit and bank deposits in financial institutions must be either federally insured or collateralized only with the following securities:
 - (1) Direct obligations of the United States or its agencies and instrumentalities;
 - (2) Other obligations, the principal and interest on which are unconditionally guaranteed or insured by or backed by the full faith and

credit of the United States or its agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States;

- (3) Letters of credit issued to Travis County by the Federal Home Loan Bank, if approved in advance by Travis County .
- (b) If an event causes an increase in Collateral of more than \$50 million to be needed after noon on any business day, the market value of collateral must be equal to or greater than 100% of the par value of the certificates of deposit, plus accrued interest, and equal to or greater than 100% of the bank deposits plus accrued interest, less the amount insured by the Federal Deposit Insurance Corporation and may remain at that level until the next business day when additional collateral can be obtained. At all other times, the market value of collateral must be equal to or greater than 105% of the par value of the certificate of deposits plus accrued interest and equal to or greater than 105% of the bank deposits plus accrued interest, less the amount insured by the Federal Deposit Insurance Corporation.

23.029 Monitoring Collateral Adequacy for All Deposits

Financial institutions with which Travis County has certificates of deposit or bank deposits must provide Travis County with monthly reports that state the market values of collateral. The Investment Manager monitors the adequacy of collateral at least weekly. If the value of the collateral falls below the required level, the financial institution must pledge additional collateral no later than the end of the next business day after the value falls below the required level.

23.030 Substituting Collateral for All Deposits

If the financial institution collateralizing certificates of deposit and bank deposits wants to substitute new collateral, the financial institution must contact the Treasurer for approval. The Investment Manager must calculate the value of the substituted collateral and determine that the substituted collateral is within the requirements of this Investment Policy and the Depository Bank Contract. The value of the new collateral must equal at least the value of the original collateral. If the collateral has sufficient value, the Treasurer may approve the substitution. The Treasurer must notify the financial institution or the safekeeping agent holding the collateral when any substitution is approved. Although substitution is allowable, it should be limited to minimize a potential administrative burden. The Treasurer may limit substitutions and assess reasonable fees if requests for substitution become excessive or abusive.

23.031 Agreements and Safekeeping for All Deposits

Financial institutions serving as county depositories must enter agreements for the safekeeping of collateral with both Travis County and its safekeeping agent, or agree to

cooperate with the Federal Reserve Bank under the terms of its Pledgee Agreement Form, to define Travis County's rights to the collateral in case of default, bankruptcy, or bank closing. All collateral securing deposits is held by the safekeeping agent.

23.032 Collateral Requirements for Repurchase Agreements

Issuers of repurchase agreements must collateralize them with obligations of the United States or its agencies. These issuers must wire transfer the collateral to the safekeeping agent designated by Travis County through the Federal Reserve System. If the collateral matures in one year or less, the value of the collateral must be at least 101% of the par value of the repurchase agreement plus accrued interest. If the collateral matures in one to two years, the value of the collateral must be at least 102% of the par value of the repurchase agreement plus accrued interest. Collateral maturity is limited to two years.

23.033 Monitoring Collateral Adequacy for Repurchase Agreements

The Investment Manager must monitor all collateral underlying repurchase agreements weekly. More frequent monitoring may be necessary during periods of market volatility. If the value of the collateral for a repurchase agreement falls below the required level, the Investment Manager must make a margin call unless the repurchase agreement matures within five business days and the difference between the value of the collateral and the required level is immaterial.

23.034 Substituting Collateral for Repurchase Agreements

Seller shall obtain written consent of Travis County prior to substitution. The duration (or maturity) of securities offered as substitutes may not exceed the duration or maturity of the originally purchased securities.

23.035 Safekeeping of Repurchase Agreement Collateral

Issuers of repurchase agreements must transfer collateral for repurchase agreements to the safekeeping agent with which Travis County has established a safekeeping agreement.

Subchapter E. Liquidity

23.036 Achieving Liquidity

23.037 Liquidating Investments

The Investment Manager may liquidate an investment to meet unanticipated cash requirements, to redeploy cash into other investments expected to outperform current holdings, or to adjust the portfolios for other reasons.

Subchapter F. Investment Return Achievement

23.038 Priority of Investment Goals

The Investment Manager must consider legality, safety, liquidity, diversification, risk and rate of return in investment selection for all portfolios. Investments are made in securities with maturities corresponding to anticipated cash requirements. Investments are to take advantage of yield curves and earn additional returns. The Investment Manager must actively manage all Travis County portfolios to enhance total income in compliance with the "prudent investor rule" described by 23.005. The Investment Manager may use bond swaps to achieve these management goals.

23.039 Bond Swaps

If the demand for a bond from a particular agency creates a situation where the yields in that agency's bonds are the same or less than an equivalent treasury security, swapping the agency's bond for a treasury security can improve the quality of Travis County's portfolios. If bonds in a particular maturity range are limited in the market, swapping a bond in demand for a similar bond in a different maturity range may be advantageous. The Investment Manager may swap a bond held in any Travis County portfolio for a comparable bond in the market to improve portfolio yield even if the transaction results in an accounting loss. The Investment Manager may swap a bond held in any Travis County portfolio if the overall yield of the portfolio will not decrease after the swap and the date of maturity of the new security is less than 181 days after the maturity date of the old security. The Investment Manager must solicit competitive bids for bond swaps. All bids received are documented and filed for auditing purposes.

The Investment Manager may rely not only on yield in selecting MMMFs and LGIPs but also on adherence to applicable Securities and Exchange Commission (SEC) guidelines for MMMFs and other criteria determined by her.
- (b) At least three bids or offers must be solicited in all transactions involving individual securities. For those situations where it may be impractical or unreasonable to receive three bids for an agency transaction due to secondary market availability, bids may be considered comparable for agencies with comparable structures and having maturities within 15 calendar days before and after the requested security. Competitive bidding for security swaps is also required. Bids may be solicited in any manner provided by law. All bids received must be documented and filed for auditing purposes.
- (c) At least three bids or offers must be solicited in transactions involving domestic commercial paper. These bids shall be obtained from approved broker/dealers or from a financial information source, such as Bloomberg. When bids are obtained from a financial information source, the commercial paper selected may be purchased directly from the issuer. Different issuers may be compared to select the highest yielding, domestic commercial paper. The Investment Manager may rely not only on yield in selecting commercial paper but also on other criteria determined by her. The criteria to follow when soliciting bids are as follows:

- (1) The maturity dates must be the same, and
- (2) The method of settlement must be the same whether regular settlement next day or cash settlement same day.

23.045 Preliminary Requirements for Repurchase Agreements

Before Travis County enters into a repurchase agreement with any issuer, that issuer must sign a Master Repurchase Agreement approved by Commissioners Court and return it to the Investment Manager for filing. All Repurchase Agreements are recommended by the Investment Manager, reviewed by Travis County Attorney's Office, and approved by Commissioners Court.

23.046 Wire Transfer Procedures

- (a) In executing investment transactions, the Treasurer must use pre-formatted repetitive wire transfers, whenever possible, to restrict transfers of funds to pre-authorized accounts.
- (b) For transfer of investment funds via wire to non-county accounts, the agreement with the depository bank must require the depository bank to call the Investment Manager for confirmation that this transfer is authorized prior to the transfer.

Subchapter I. Performance Evaluation And Reporting

23.047 Levels of Evaluation

Evaluation is conducted at several levels. The Investment Manager continually monitors and evaluates the investment performance. Cashflow forecasts will be reviewed by the Investment Advisory Committee. The Investment Advisory Committee evaluates the investment strategies and portfolio performance. The Travis County Executive Manager for Planning and Budget or the Travis County Budget Director evaluates the Investment Manager's entire performance.

23.048 Investment Advisory Committee

The Investment Advisory Committee reviews investment policies and procedures, investment strategies, and investment performance. Travis County members of the Committee include: two designated members of Commissioners Court, one of whom acts as Chair, the Executive Manager of Planning and Budget, the Investment Manager, the Treasurer, and the Auditor. The Chair calls annual meetings of the committee or more often as needed.

23.049 Performance Analysis and Reporting

The Investment Manager determines the level and content of daily and weekly performance analysis and reporting. The Investment Manager and the Commissioners Court jointly decide the level and content of monthly performance analysis and reporting.

23.050 Quarterly Performance Analysis and Reporting

- (a) The Investment Manager and the Assistant Investment Manager(s) must prepare, provide, and sign a quarterly summary report, for each fund group, that describes in detail the investment position of Travis County and evaluates investment performance based on investment policy objectives. The quarterly report will identify the method and source used to monitor the market price of investments and also will indicate whether the method and source changed from the previous quarterly report. This report must be submitted to the Investment Advisory Committee and Commissioners Court. A comparison of the performance of Travis County's portfolio to appropriate benchmarks selected by the Investment Manager is presented. The report addresses compliance with the investment policy in diversification by type and maturity. The report also includes the following information:
- (1) Cash availability,
 - (2) Market review,
 - (3) Investment strategy – next quarter,
 - (4) Performance measurement: the standard used by Travis County to measure its investment return is based on the yield to maturity of all investments in the portfolio, using the stated final maturity date of each security,

 - (6) Collateral adequacy for repurchase agreements,
 - (7) Collateral adequacy for bank deposits and certificates of deposit,
 - (8) Investment activity,
 - (9) Market valuation:

 - (C) state the fund for which it was acquired, and
- (14) Signatures of the Investment Manager and the Assistant Investment Manager(s) certifying compliance of the Travis County investment portfolios with the Travis County investment strategy, policy and the Public Funds Investment Act.
- (b) The reference to Generally Accepted Accounting Principles in 23.050 (a) relates only to internal reporting of investments by the Investment Manager as required under Texas Government Code 2256.023, and does not apply to annual financial statements and other external reports of Travis County as a whole.

23.051 Annual Performance Analysis and Reporting

The Investment Manager compiles the quarterly reports into an annual report at the end of each fiscal year and submits it to the Investment Advisory Committee and the Commissioners Court by the end of the first quarter of the following fiscal year.

An independent auditor chosen to audit the County's annual financial statements must formally review the quarterly investment reports that are prepared in compliance with the Public Funds Investment Act. In conjunction with this audit, Travis County shall perform a compliance audit of management controls on investments and adherence to this Investment Policy. This review should be performed at least annually and the results reported to Commissioners Court.

Sec. 2256.005. INVESTMENT POLICIES; INVESTMENT STRATEGIES; INVESTMENT OFFICER. (a) The governing body of an investing entity shall adopt by rule, order, ordinance, or resolution, as appropriate, a written investment policy regarding the investment of its funds and funds under its control.

(b) The investment policies must:

(1) be written;

(2) primarily emphasize safety of principal and liquidity;

(3) address investment diversification, yield, and maturity and the quality and capability of investment management; and

(4) include:

(A) a list of the types of authorized investments in which the investing entity's funds may be invested;

(F) procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the provisions of Section 2256.021.

(c) The investment policies may provide that bids for certificates of deposit be solicited:

- (1) orally;
- (2) in writing;
- (3) electronically; or
- (4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

- (1) understanding of the suitability of the investment to the financial requirements of the entity;
- (2) preservation and safety of principal;
- (3) liquidity;
- (4) marketability of the investment if the need arises to liquidate the investment before maturity;
- (5) diversification of the investment portfolio; and
- (6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

- (1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;
- (2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or
- (3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any person offering to engage in an investment transaction with an investing entity or to an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. For purposes of this subsection, a business organization includes investment pools and an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

- (1) received and reviewed the investment policy of the entity; and
- (2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entity's entire portfolio or requires an interpretation of subjective investment standards.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a person who has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.
