FROM:

Sherri E. Fleming, County Executive

Travis County Health and Human Services and Veterans Service

SUBJECT:

Modify Family Eldercare Contract #4400000740

### **Proposed Motion:**

Consider and take appropriate action to execute a modification to the contract with Family Eldercare, Inc. to maintain staffing and capacity of its Money Management Program providing services to improve the financial stability of low income older adults and adults with disabilities in Travis County.

### **Summary and Staff Recommendations:**

Faced with an increase in need among Travis County's population of older and/or disabled adults, Family Eldercare submitted a budget request in accordance with Travis County's Budget Rules and process for an increase in the amount of funding to support its Money Management Program which provides financial stability services to low income older adults and disabled individuals in the form of providing access to a Representative Payee to manage day-to-day bills and a case manager to assist with access to benefits to which older adults and adults with disabilities may be entitled.

The Court had previously approved a short-term contract (7/1/12 - 9/30/12 for \$22,295) to partially fund two case managers to serve an additional 90 clients.

### **Budgetary and Fiscal Impact:**

Recently, Family Eldercare was approved for \$95,020 in on-going funding for these services. This requested modification, (one-quarter of the annual on-going award), will

prevent a gap in services and continue to provide funding for these case managers for the remainder of the 2012 calendar year. The remainder of the new, on-going award will be incorporated into the 2013 calendar year contract along with the existing award to this contractor. Funds are available in the fiscal year 2013 budget.

### **Issues and Opportunities:**

Increasing the capacity of this program will allow the program to serve 90 additional clients over the proposed annual contract period and keep these individuals from being prematurely institutionalized.

### Background:

Family Eldercare has, historically provided In-Home Care and Bill Payer programs. The In-Home Care program provides respite care on a sliding fee scale to ensure accessibility to low-income clients. The program supports and sustains caregivers in their efforts to care for elderly and disabled loved ones and supports older adults living alone with minimal caregiver support. The Bill Payer program provides bill payer and representative payee services to adults who are unable to manage their own finances. Services provide a final safety net to those most at risk for premature institutionalization. In addition, Family Eldercare works with the Travis County Probate Court providing quality guardianship services to incapacitated older adults and adults with disabilities.

# Form #3: PROGRAM WORK STATEMENT for 2012 Social Service Contracts funded by Travis County

Date prepared: 9/17/2012

Agency: Please answer the following questions as they pertain to only those programs and services in which Travis County invests. Note: the information contained in this document will be used in reports to the Travis County Commissioners Court and the community.

Agency: Family Eldercare Program: Money Management

1. Program goals and objectives:

Briefly describe the goals and objectives of the services purchased by Travis County in this contract. Family Eldercare's vision is that older adults and adults with disabilities live in a supportive environment with dignity and as much independence as possible. Family Eldercare operates the primary bill payer service for low-income seniors and adults with disabilities in Travis County. The Money Management Program provides care management, bill payer, and representative payee services to adults who are unable to manage their own finances. Services provide a safety net to those most at risk for premature institutionalization. This least restrictive form of assistance prolongs independent living by ensuring that basic needs are met and prevents financial exploitation among frail and disabled adults. Money Management services also act as an alternative to more restrictive and costly guardianship services.

2. Program clients served:

Describe the eligibility requirements to participate in the program or in each component of the program (for example: Travis County residency, income level, age).

The Money Management program targets adults (age 18+) in Travis County who are unable to manage their own finances and are at risk for financial exploitation, self-neglect, homelessness, and premature institutionalization. All clients are low-income (at or below 200% of the Federal Poverty Guidelines) and have no available or appropriate family or friends to assist in meeting their needs.

3. Program services and delivery:

Describe the Travis County funded services and how they are provided by the agency. Provide enough detail so that the contract reviewer is able to have a comprehensive understanding of your services and how they are delivered to clients.

The Money Management program uses case managers and volunteers to assist clients who need help managing their finances. Bill payers help with budgeting, calling service providers or creditors, balancing checkbooks and/or writing checks. Representative payees are designated via Family Eldercare to receive and manage certain types of benefits (Social Security, Veteran's Affairs, Office of Personnel Management, Railroad Retirement) on behalf of their client. Trained volunteers assist by serving as a bill payer or representative payee for clients, under the supervision of case managers. Case managers help clients overcome problems that limit their ability to live independently, i.e. lack of affordable housing, need for medical or mental health care, etc. Referral sources are not restricted but referrals from contract entities are given priority to comply with contractural obligations. Completed referrals for representative payee services must have a physician's certification stating the nature and extent of the client's incapacity or inability to manage funds. Cases where there is imminent danger to a client referral's person or property receive top priority. Program Activities are: 1. Screen clients for eligibility; 2. In-person assessment of client to determine appropriate, least restrictive service; 3. Share information on other community resources; 4. Develop goal-oriented Care Plan for each client; 5. Establish support services to protect client and resources (provide intervention in abusive/exploitative situations, establish bill payer relationship or representative payeeship, recruit/train/match volunteer); 6. Link client to community-based services to support legal, financial, housing, medical, nutritional, social, and other needs; 7. Direct service provision: regular face-toface client contact (staff or volunteer), ensure client safety and security, address changes in client care and resources as necessary, monitor financial stability, monitor use of resources, reporting as required for representative payeeship, monitor volunteer services; 8. Maintain appropriate documentation. A face-to-face

visit by staff and review of the Care Plans are done at a minimum of every six months to evaluate the need for continuing services.

4. Service coordination and collaboration strategies:

Describe how the agency coordinates its services with services being provided by other agencies and describe how the agency collaborates with other agencies. If you are not currently collaborating with other agencies, what is your plan for increasing collaboration?

In order to align and coordinate services, Family Eldercare is an active participant in many local planning bodies, coalitions, and task forces. Because services are provided on a continuum of care to meet the needs of the elderly population and people with disabilities, Family Eldercare participates in several planning and advocacy bodies, including the Aging Services Council of Central Texas, Intellectual and Developmental Disabilities Coalition, the Ending Community Homeless Coalition (ECHO), the Mayor's Task Force on Aging, and One Voice Central Texas. Additionally, Family Eldercare is involved in networking and with professional organizations to help maximize service coordination, replicate "best practices" and avoid duplication of services. These groups include Austin Area Home Health Council, Texas Senior Advocacy Coalition, National Council on Aging, American Society on Aging, National Association of Service Coordinators, National Association of Social Workers, AARP Foundation — Texas Money Management Program, Association of Fundraising Professionals, Association of Grant Professionals, Georgetown Chamber of Commerce, and I Live Here, I Give Here.

Family Eldercare is involved with multiple collaborations that enhance and expand programs.

Guardianship: Since 1986, Family Eldercare has collaborated with the Probate and Estate Committee of the Travis County Bar Association to strengthen the Guardianship Program by providing legal advocacy for eligible clients. These lawyers, recruited primarily through Volunteer Legal Services of Central Texas (VLS), handle all required legal filings and court work pro-bono, so that Family Eldercare may establish and maintain guardianships.

Money Management Program: In 1994, Family Eldercare established a collaboration with American Association of Retired Persons (AARP), through which the Money Management program receives volunteer money managers recruited from AARP's membership, technical assistance, training materials, limited insurance coverage of client funds, and assistance with program monitoring and evaluation.

Because of the high number of clients with developmental and other disabilities needing services, Family Eldercare has developed collaborations and strategies to address the needs of these clients. In 2000, the agency became a designated service provider with ATCIC so that clients of this agency can receive bill payer and representative payee services using contract service funds available through ATCIC. In October 2004, Family Eldercare and Front Steps established a collaboration through which Family Eldercare provides bill payer or representative payee services at the Austin Resource Center for the Homeless (ARCH) to homeless adults who are unable to manage their finances. The goal of the project is to assist these individuals in obtaining permanent and stable housing.

In-Home Care and Caregiver Services: Family Eldercare collaborates with Foundation Communities to provide in-home care to older adults and disabled adults living in their three Single Room Occupancy properties. Family Eldercare provides Care Attendants who visit each property for a set number of hours each month to assist residents with basic tasks such as housekeeping, meal preparation, grocery shopping, medication reminders, and companionship. These services are instrumental in helping older and disabled adults maintain the safety and cleanliness of their apartment, address their basic needs and feel connected to the larger community.

Consultation and Service Coordination: In 2000 a collaboration with Masterson Equities, Ltd. resulted in the availability of Family Eldercare consultation and referral services, case management, and other services to residents of the Lodge at Merrilltown, a tax credit senior living community. In 1999, Family Eldercare established a collaborative agreement with Campbell Hogue and Associates to provide consultation and

referral services, case management, and other services to residents of Heatherwilde of Pflugerville, a tax credit senior living community.

Aging in Place Initiative (Elders Living Well): This program received a three year federal grant in October 2009 to provide services that support aging in place for older residents of public housing in Austin. The program involves collaboration with six other nonprofit organizations that serve older adults, as well as the Housing Authority of the City of Austin and the University of Texas School of Nursing and School of Social Work. Partner nonprofits include HAND, AAA of the Capital Area, Coming of Age (formerly RSVP), Meals on Wheels and More, and New Connections. These agencies provide services that help older adults remain independent and engaged in their community.

Best Single Source Plus: Family Eldercare is a member of this public-private coalition, which was formed in 2001 to reform the basic needs service delivery system in Travis County. Family Eldercare is one of the partner agencies of the Best Single Source collaboration, which was developed to improve the system for distributing emergency financial assistance to clients in need. Other partners include: Meals on Wheels and More, SafePlace, Caritas of Austin, ARC of the Capital Area, Any Baby Can, AIDS Services of Austin, Goodwill Industries, Wright Wellness Center, and Catholic Charities of Central Texas.

Summer Fan Drive: This program distributes fans and air conditioning units to vulnerable populations—elderly, children and disabled persons. Every summer, Family Eldercare partners with more than 40 community nonprofits and government agencies for assistance with distributing fans to those in need. Teams of volunteers collect and deliver over 5,500 fans and A/Cs to vulnerable low-income older adults, adults with disabilities and families with children in and around Travis County. The program purchases and installs window A/Cs for persons with serious health issues.

### 7. Community planning activities:

Describe your agency's involvement in community planning activities that are specific to the services provided under this contract.

Family Eldercare is an active participant in the following Community Action Network planning bodies: Aging Services Council of Central Texas, Intellectual and Developmental Disabilities Planning Partnership, and the Ending Community Homeless Coalition (ECHO). Family Eldercare is also a member of One Voice Central Texas and I Live Here, I Give Here.

### 8. Program Evaluation Plan

### Performance evaluation:

Describe how the agency will evaluate the program's performance in achieving program goals. Note: if any survey(s) or questionnaire(s) are used in the evaluation of the program or its performance, please provide a brief description of survey procedures (for example: how the survey is distributed and to whom).

Family Eldercare has systems in place to measure program outputs and outcomes. Client outputs and outcomes are typically measured as part of the service planning process. Case Managers work with the client to develop an individualized service plan that includes long and short term goals. Staff visits with clients on a regular basis to review their progress with their individual service plan or resident care and community coordination plan. Most client service plans are reviewed quarterly.

Outcome data are kept in the client file and captured in the agency client database. Care Managers participate in monthly case review meetings with their supervisor and also provide monthly reports to the Program Director, who reviews monthly reports and compiles and submits this information to the Chief Executive Officer for review. The Program Director is responsible for monitoring program results, implementing corrective action and keeping the Chief Executive Officer informed.

Modification No. 6 Contract No. PS090115RE Page 10 of 17

Additional data on client outcomes are collected through surveys of clients conducted annually. These surveys measure client satisfaction and the degree to which clients have gained knowledge or skills from the services provided. Surveys are conducted by both mail and telephone.

### • Quality improvement:

Describe the process for identifying problems or other issues in service delivery, designing activities to overcome these problems, and following up to ensure corrective actions have been effective.

Changes to programs and services are made based on findings of the performance evaluation activities listed previously. Surveys of clients, volunteers, and stakeholders are conducted annually to solicit feedback on quality improvement issues.
