Travis County Commissioners Court Agenda Request

Meeting Date: June 25, 2013

Prepared By: Paul Scoggins **Phone #:** 512-854-7619

Division Director/Manager: Anna Bowlin, Division Director of Development Services and Long Range Planning

Department Head: Steven M. Manilla, P.E., County Executive-TNR

Sponsoring Court Member: Commissioner Davis, Precinct One

AGENDA LANGUAGE: Consider and take appropriate action on a request to authorize the filing of an instrument to vacate three public utility and drainage easements located over and across Lots 64 and 65, Block A of Kingsberry Park – Precinct One.

BACKGROUND/SUMMARY OF REQUEST:

TNR staff has received a request to authorize the filing of an instrument to vacate three public utility and drainage easements (PU&DEs) located over and across Lots 64 and 65, Block A of Kingsberry Park. The easements are dedicated by plat note on the plat. The subject lots front on Postoak Parkway, a street maintained by Travis County.

In regards to the drainage easements, professional engineer Tom McDill, Jr. has stated and sealed that:

"Vacating these will not affect existing drainage, as the flows are across the area from the west side...and the ditches in the roadway have culverts and since the entire area is very flat there should be no local affect on the drainage."

In regards to the public utility easements the utility companies operating in the area have stated they have no objection to vacating the subject easements. Staff foresees no opposition to this request.

STAFF RECOMMENDATIONS:

The request has been reviewed by TNR staff and staff finds the vacation request meets all Travis County standards. As such, TNR staff recommends the request.

ISSUES AND OPPORTUNITIES:

According to the request letter the property owner requests the vacation of the easements for the purpose of replacing the original septic system, which "...was not very well installed." The design of the new system would encroach on the subject

easements. Also, the existing home was placed over the easements located along the common lot line of the subject lots.

Re: Lots 64 & 65, Kingsberry Park, 20707 Postoak Parkway – drainage easement vacate

The owner of this property, Jose Ramirez & Carolina Tamayo, are under a Contract for Deed, with James Umstattd, and I will provide copies of the instruments if you need them. There has been a home over the common lot line for several years and the OSSF was not very well installed. They are now trying to install a new system and have submitted an application. The design will have to be amended to meet existing set backs, but some of the side lot easements need to be vacated to install any system.

The 5 foot blanket PUE and drainage easement was established on the 1967 plat and the survey is attached to show what easements we are requesting that they be vacated to allow a legal system design for the new OSSF. We are proposing to leave the drainage easement across the rear and west sides to allow any future drainage improvements if they are made across the subdivision. Vacating these will not affect existing drainage, as the flows are across the area from the west side (the neighbor has constructed building along that property line!) and the ditches in the roadway have culverts and since the entire area is very flat there should be no local affect on the drainage.

The letters from the affected utility companies are attached, the survey is included, as is a check for \$680.00.

There have been offers to the property owner to the east to vacate his 5' easement, but he does not want to get “involved”.

There have been discussions with the Manville Water Company and they are requesting a \$1000 fee to sign off. I do not think that is fair and they specifically require an easement across the front of each lot as part of their application process. Since they have that, as well as an option across the west edge of this property, and they have agreed to supply water to the house that exists and to the neighbor’s house at the property line on the east side, they have acquiesced these other routes for their water lines.

Thanks,

Thomas F. McDill, Jr.
