

Travis County Commissioners Court Agenda Request

Meeting Date: August 19, 2014

Prepared By: David Greear **Phone #:** (512) 854-7650

Director, Road and Bridge

Department Head: Steven M. Manilla, P.E., County Executive-TNR

Sponsoring Court Member: Commissioner Daugherty, Precinct Three

AGENDA LANGUAGE: Consider and take appropriate action on a request to approve an Advance Funding Agreement with the Texas Department of Transportation for centerline texturing for safety purposes on Hamilton Pool Road.

BACKGROUND/SUMMARY OF REQUEST:

Working with the Texas Department of Transportation through a Hazard Elimination/Safety Project program that identifies locations to qualify for safety improvements, Travis County has identified the need for centerline texturing on Hamilton Pool Road. TxDOT will design and let a construction contract for the work, with a 10% local match for funds.

STAFF RECOMMENDATIONS:

TNR recommends approval of the AFA to cover the 10% local match for this safety improvement.

ISSUES AND OPPORTUNITIES:

Centerline texturing on Hamilton Pool Road from RM12 to the Pedernales River will improve safety for traffic on Hamilton Pool Road. The centerline texturing creates an audible warning to drivers who inadvertently cross the centerline due to reasons such as distraction, texting, falling asleep, excessive speed or incorrectly navigating a curve. This specific improvement was proposed after an extensive evaluation of accident history over the past three years showed a substantial amount of accidents related to single vehicle loss of control due to inattention and excessive speeds.

FISCAL IMPACT AND SOURCE OF FUNDING:

The Advance Funding Agreement enables the County to pay the required 10% (\$8,394 with \$1,097 required as an initial payment and \$7,297 required before construction begins). Travis County's cost will come from Road and Bridge funds budgeted for Safety Supplies and Equipment.

THIS AGREEMENT is made by and between the State of Texas, acting by and through the Texas Department of Transportation called the "State", and the County of Travis, acting by and through its duly authorized officials, called the "Local Government."

WITNESSETH

WHEREAS, federal law establishes federally funded programs for transportation improvements to implement its public purposes; and

WHEREAS, the Texas Transportation Code, Sections 201.103 and 222.052 establish that the State shall design, construct and operate a system of highways in cooperation with local governments; and

WHEREAS, federal and state laws require local governments to meet certain contract standards relating to the management and administration of State and federal funds; and

WHEREAS, the Texas Transportation Commission passed Minute Order Number 113885, authorizing the State to undertake and complete a highway improvement generally described as Hazard Elimination called the "Project"; and,

WHEREAS, the Governing Body of the Local Government has approved entering into this agreement by resolution or ordinance dated _____, 20__, which is attached to and made a part of this agreement as Attachment "A" for the improvement covered by this agreement. A map showing the Project location appears in Attachment "B," which is attached to and made a part of this agreement.

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties, to be by them respectively kept and performed as set forth in this agreement, it is agreed as follows:

AGREEMENT

1. Period of the Agreement

2. Scope of Work

Construction of centerline texturing on Hamilton Pool Road in Travis County as shown on Attachment "B".

3. Local Project Sources and Uses of Funds

- A. The total estimated cost of the Project is shown in the Project Budget – Attachment "C", which is attached to and made a part of this agreement. The expected cash contributions from the Federal or State government, the Local Governments, or other parties is shown in Attachment "C". The State will pay for only those project costs that have been approved by the Texas Transportation Commission. The State and the Federal Government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.
- B. If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.
- C. This Project cost estimate shows how necessary resources for completing the Project will be provided by major cost categories. These categories may include but are not limited to: (1) costs of real property; (2) costs of utility work; (3) costs of environmental assessment and remediation; (4) cost of preliminary engineering and design; (5) cost of construction and construction management; and (6) any other local project costs.
- D. The State will be responsible for securing the Federal and State share of the funding required for the development and construction of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.
- E. The Local Government will be responsible for all non-federal or non-state participation costs associated with the Project, including any overruns in excess of the approved local project budget unless otherwise provided for in this agreement or approved otherwise in an amendment to this agreement.
- F. Prior to the performance of any engineering review work by the State, the Local Government will pay to the State the amount specified in Attachment C. At a minimum, this amount shall equal the Local Government's funding share for the estimated cost of preliminary engineering for the Project. At least sixty (60) days prior to the date set for

receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction cost.

- G.** In the event that the State determines that additional funding by the Local Government is required at any time during the Project, the State will notify the Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- H.** Whenever funds are paid by the Local Government to the State under this agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation Trust Fund." The check or warrant shall be deposited by the State in an escrow account to be managed by the State. Funds in the escrow account may only be applied to the State Project.
- I.** Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due by the Local Government, the State, or the Federal government will be promptly paid by the owing party. If, after final Project accounting, excess funds remain in the escrow account, those funds may be applied by the State to the Local Government's contractual obligations to the State under another advance funding agreement with approval by appropriate personnel of the Local Government.
- J.** The State will not pay interest on any funds provided by the Local Government.
- K.** If a waiver has been granted, the State will not charge the Local Government for the indirect costs the State incurs on the local Project, unless this agreement is terminated at the request of the Local Government prior to completion of the Project.
- L.** If the Project has been approved for a "fixed price" or an "incremental payment" non-standard funding or payment arrangement under 43 TAC §15.52, the budget in Attachment C will clearly state the amount of the fixed price or the incremental payment schedule.
- M.** If the Local government is an Economically Disadvantaged County and if the State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.
- N.** The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.
- O.** Payment under this contract beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this contract shall be terminated immediately with no liability to either party.
- P.** The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.
